If the student took the writing test, the essay was scored on a scale of 1 to 6 by two raters in each of the four writing domains. These domains represent essential skills and abilities that are necessary to meet the writing demands of college and career. The domain scores, ranging from 2 to 12, are a sum of the two raters' scores. The writing score is the average of the student's four domain scores rounded to the nearest whole number. To learn more about the writing score, visit www.act.org/the-act/writing-scores.

ACT College Readiness Benchmarks

If the student's score is at or above the Benchmark, he or she will likely be ready for first-year college courses in the corresponding subject area. There is currently no Benchmark for writing.

Superscore: Student's Score Range

Highest Full Battery: Student's Score Range

Test scores are estimates of the student's educational development. Think of true achievement on this test as being within a range that extends about one standard error of measurement, or about 1 point for the Composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below the student's score
